

Name: _____

**Topic 5: Addition and Subtraction
on a Number Line**

Lesson 1

From a Ruler to a Number Line

My Learning Goals

I can use rulers to measure an object.

I can use a number line to add and subtract numbers up to 20.

Activate Adding and Subtracting with Paper Strips

➤ Use the rulers to complete the activity.

Explore Adding and Subtracting with Serena

➤ Use the ruler and number line to complete the activity.

A **number line** is a line that shows numbers marked at equal distances from each other.

Explore Adding and Subtracting on the Number Line

➤ Write the equation modeled by each jump.

$$5 + 5 = 10$$

Explore continued

➤ Complete each equation to represent the jump modeled on each number line.

4 + 2 = 6

Reflect Reflect and Summarize

➤ Think about what you learned in this lesson.

- 1 How can you model addition or subtraction equations on a number line? Explain your thinking using words, numbers, or pictures.
